

Benjamin N. Smith
Principal Technical Analyst, MSC of MS

<http://mscrecon.com/>

Messerschmidt Safety Consultants of Mississippi (MSC of MS) is managed by Benjamin N. Smith, ACTAR #2270, a Hattiesburg, Mississippi resident and an alumnus of the University of Southern Mississippi.

From his Mississippi office location, Ben Smith provides rapid response to clients needing accident reconstruction services in Mississippi and Alabama and throughout the Southeast, including the states of Louisiana, Arkansas, Tennessee, and Georgia.

In addition to heavy vehicle crash reconstruction, Ben Smith provides Commercial Vehicle Electronic Control Module (ECM) downloads, Event Data Recorder – Black Box – imaging, photogrammetry, 3-D animations, forensic mapping, Bosch Crash Data Retrieval (CDR) Tool passenger car black box downloads, and other services related to accident investigation to clients including lawyers defending or prosecuting a traffic accident case and professionals in the insurance industry.

Ben Smith has performed Heavy Vehicle Event Data Recorder and Electronic Control Module research that has been published by the Society of Automotive Engineers (SAE), and Collision Magazine.

A University of Southern Mississippi alumnus, Ben Smith has lectured for the Department of Forensic Science at Southern Miss on topics such as crash reconstruction and forensic mapping. He has presented at a variety of venues in Mississippi on topics such as crime and crash scene mapping, interpretation and recognition of collision scene evidence, forensic mapping with Total Stations, and other topics in advanced crash reconstruction.
